

Ms. Debra R. Waters
Manager, Environment, Health and Safety
The Mosaic Company
215 South Monroe St., Suite 730
Tallahassee, FL 32301

Subject: Florida Phosphate Sites

Dear Ms. Waters:

Thank you for taking the time to meet me on April 15, 2010, to discuss the Florida Phosphate Sites. As we discussed, a large number of phosphate mine-related sites are in EPA's CERCLIS database. EPA is currently evaluating options for addressing these sites.

As a current leader in the phosphate mining industry in the State of Florida, EPA anticipates that the Mosaic Company, as well as other phosphate mining companies, will play a key role in a future strategy for addressing these sites.

EPA plans to meet with the Secretaries for the Florida Department of Environmental Protection Agency and Florida Department of Health on June 25, 2010, regarding an approach for addressing these sites.

I look forward to working with you in the future. Should you have any questions, feel free to contact me at 404-562-8599.

Sincerely,

Franklin E. Hill, Director
Superfund Division
